Music in the Baroque Era - From Monteverdi to Bach Manfred F. Bukofzer, 2013-04-16 This vintage book contains a comprehensive treatise of Baroque music. It was written for the music student and music lover, with the aim of acquainting them with this great period of music history and helping them to gain a historical understanding of music without which baroque music cannot be fully appreciated and enjoyed. Written in simple, plain language and full of fascinating information about baroque music, this text will appeal to those interested in music but who have little previous knowledge of baroque, and it would make for a most worthy addition to collections of music-related literature. The chapters of this book include: 'Early Baroque in Italy'; 'The Beginnings of the Concertato Style: Gabrieli'; 'The Phases of Baroque Music'; 'Tradition and progress in Sacred Music'; 'The Netherlands School and Its English Background', et cetera. We are republishing this antiquarian volume now in an affordable, modern edition complete with a new prefatory biography of the author.

Boris Godunov (Libretto) Modest Petrovich Mussorgsky, 2013-11 Boris Godunov is an opera by Modest Mussorgsky (1839-1881). The work was composed between 1868 and 1873 in Saint Petersburg, Russia. It is Mussorgsky's only completed opera and is considered his masterpiece. Its subjects are the Russian ruler Boris Godunov, who reigned as Tsar (1598 to 1605) during the Time of Troubles, and his nemesis, the False Dmitriy (reigned 1605 to 1606). The Russian-language libretto was written by the composer, and is based on the dramatic chronicle Boris Godunov by Aleksandr Pushkin, and, in the Revised Version of 1872, on Nikolay Karamzin's History of the Russian State.

The Classical Style Charles Rosen, 1997 Presents a detailed analysis of the musical styles and forms developed by Mozart, Haydn, and Beethoven.

Music in the Romantic Era Alfred Einstein, 1947 The present volume of the Norton History of Music is an attempt to characterize the Romantic movement through its center: music. My aim has been to show how the Romantic movement was

manifested in music and how music affected the Romantic movement. - Foreword.

Domenico Scarlatti: 30 Sonatas Fabio Zanon,2012-07-12 An exact contemporary of Bach and Handel, Domenico Scarlatti was already a celebrated composer in Italy by the time he moved to Portugal. Later he traveled to Spain, where he worked as a harpsichord instructor for Princess Maria Barbara. The lessons he wrote for her are among the most imaginative and unpredictable pieces from the whole baroque period. His music translates very well to the guitar, an instrument where his style is completely at home. This set of 30 sonatas transcribed by acclaimed guitarist Fabio Zanon includes new transcriptions of all-time favorites and some rarer ones as well.

The Finale in Western Instrumental Music Michael Talbot,2001 The knowledge that finales are by tradition (and perhaps also necessarily) 'different' from other movements has been around a long time, but this is the first time that the special nature of finales in instrumental music has been examined comprehensively and in detail. Three main types of finale, labelled 'relaxant', 'summative', and 'valedictory', are identified. Each type is studied closely, with a wealth of illustration and analytical commentary covering the entire period from the Renaissance to the present day. The history of finales in five important genres -- suite, sonata, string quartet, symphony, and concerto -- is traced, and the parallels and divergences between these traditions are identified. Several wider issues are mentioned, including narrativity, musical rounding, inter-movement relationships, and the nature of codas. The book ends with a look at the finales of all Shostakovich's string quartets, in which examples of most of the types may be found.

Italian Violin Music of the Seventeenth Century Willi Apel,1990 The emergence of pieces designated for specific instruments marked a significant change in musical practice. The celebrated musicologist Willi Apel discusses virtually all the surviving printed works from the seventeenth century that are intended for the violin. He describes the music of some sixty Italian composers of this period, detailing the individual innovative aspects of the pieces, their form, and issues of performance practice. --

Dieterich Buxtehude Kerala J. Snyder,1987 An enlightening, revised edition of the definitive biography on celebrated organist and composer, Dieterich Buxtehude. This book is a new edition of the most comprehensive life-and-works study of the great Baroque-era organist and composer Dieterich Buxtehude (ca. 1637-1707), released to celebrate the tercentenary of the composer's death. Originally published in 1987 and long out of print, *Dieterich Buxtehude: Organist in Lübeck* is considered by most musicologists to be the definitive biography. It also includes close description of Buxtehude's compositional output, from trio sonatas to the famed *Abendmusiken*: Buxtehude's yearly oratorio presentations. The young J. S. Bach traveled to Lübeck on foot in 1705 to learn as much as he could from the great master of the organ and of Lutheran church music. The revised edition contains new information on the organs that Buxtehude played in Scandinavia and Lübeck, excerpts from the newly available account books from St. Mary's in Lübeck, a discussion of newly discovered sources, including one written by J. S. Bach, an evaluation of recent scholarship on Buxtehude, and an extensive bibliography. Written for both the casual reader and the serious scholar. The accompanying music CD (this material is now provided on a companion website) provides examples of all genres discussed in the book -- vocal works, a trio sonata, harpsichord music, and organ music newly recorded on the North German meantone organ in Gothenburg, Sweden, by a noted specialist in this repertoire, Hans Davidsson, who is professor of organ at the University of Rochester's Eastman School of Music and the founder of the Göteborg Organ Art Center (GOArt). Kerala J.Snyder is Professor Emerita of Musicology, Eastman School of Music (University of Rochester).

Music in the Middle Ages and the Renaissance Harold Gleason,Warren Becker,1981 This is a complete revision of the second edition, designed as a guide and resource in the study of music from the earliest times through the Renaissance

period. The authors have completely revised and updated the bibliographies; in general they are limited to English language sources. In order to facilitate study of this period and to use materials efficiently, references to facsimiles, monumental editions, complete composers' works and specialized anthologies are given. The authors present this systematic organization in this volume in the hope that students, teachers, and performers may find in it a ready tool for developing a comprehensive understanding of the music of this period.
