Spirit Anthony Head,2019-03-07 As he lay bleeding in a Vietnamese rice paddy, his right arm shredded by shrapnel, artist Jesse Treviño realized that he wanted to honor and preserve his family and his cultural heritage through his artwork. After receiving a Purple Heart and undergoing two years of rehabilitative therapy and the amputation of his right forearm—including his painting hand—Treviño enrolled in San Antonio College, determined to learn how to draw and paint with his left hand. In 1974 he produced the impressive *La Historia Chicana*, a one hundred-foot-long work embracing six centuries of Mexican American heritage now on display inside the Sueltenfuss Library at Our Lady of the Lake University in San Antonio. Since then, Treviño has completed many more paintings and public artworks, including *Spirit of Healing*, the nine-story hand-cut tile mosaic that graces Christus Santa Rosa Children’s Hospital in downtown San Antonio. His work has been collected by the Smithsonian American Art Museum, the Lyndon Baines Johnson Library and Museum, and the San Antonio Museum of Art. Anthony Head’s sensitive and elegant biography now offers readers an intimate view of the artist’s life. Head captures Treviño’s determination, artistic vision, and the deep pride in his Chicano heritage that he transmits to the world through his creations. *Spirit: The Life and Art of Jesse Treviño* promises to engage and inspire readers with its vivid portrayal of this triumph of art and the human spirit.

Stanley's Dream Jacalyn Duffin,2019-08-30 In 1964-65, an international team of thirty-eight scientists and assistants, led by Montreal physician Stanley Skoryna, sailed to the mysterious Rapa Nui (Easter Island) to conduct an unprecedented survey of its biosphere. Born of Cold War concerns about pollution, overpopulation, and conflict, and initially conceived as the first of two trips, the project was designed to document the island’s status before a proposed airport would link the one thousand people living in humanity’s remotest community to the rest of the world - its germs, genes, culture, and economy. Based on archival papers, diaries, photographs, and interviews with nearly twenty members of the original team, *Stanley’s Dream* sets the expedition in its global context within the early days of ecological research and the understudied International Biological Program. Jacalyn Duffin traces the origins, the voyage, the often-complicated life within the constructed camp, the scientific preoccupations, the role of women, the resultant reports, films, and publications, and the previously unrecognized accomplishments of the project, including a goodwill tour of South America, the delivery of vaccines, and the discovery of a wonder drug. For Rapa Nui, the expedition coincided with its rebellion against the colonizing Chilean

military, resulting in its first democratic election. For Canada, it reflected national optimism as the country prepared for its centennial and adopted its own flag. Ending with Duffin's own journey to the island to uncover the legacy of the study and the impact of the airport, and to elicit local memories, Stanley's Dream is an entertaining and poignant account of a long-forgotten but important Canadian-led international expedition.

Chile Tim Burford, 2005 This guide to Chile refreshingly focuses on the country's natural history and culture. It encompasses every aspect of this geographically diverse country, from the immense deserts and peaks in the north, via the fertile central valleys, to the dense rainforests and glaciers of the south. There is opportunity to discover the culture of Chile, including mummies from the 5th century BC found in the Atacama Desert and Inca ruins. Travellers can hike the Andes, savour fine and affordable wine, and venture off shore to sail and kayak. This guide details every aspect of travel, from accommodation and eating out to national parks and sailing, in this most easy of Latin American countries for independent travellers.

6th International Conference on the Conservation of Earthen Architecture The Getty Conservation Institute, 1991-02-28 On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing.

La arquitectura de la destrucción Guillermo Iván López Domínguez ,2021-10-28 ¿Podrá tener la arquitectura el derecho a una muerte digna? El objetivo arquitectónico ha sido tradicionalmente asumido como algo permanente, perdurable y sólido, ha sido un depósito de ideales de trascendencia. Cuestionar la vigilancia de estas ideas es un buen punto de partida para revisar los supuestos sobre lo que se construye la disciplina, descubrir y entender mejor otra serie de procedimientos y operaciones que pueden ser utilizadas. El proceso edificatorio de construcción es sólo el principio de la vida material de una obra que, a lo largo del tiempo, tendrá que enfrentarse, en la mayoría de los casos, a la decadencia y al deterioro.
